

Presentation of the organisation

- NPO stemming from the grouping of 44 municipalities that decided to take matters into their own hands regarding their waste management.
- Over 200 municipalities serviced (1 800 000 citizens) from Outaouais, the Laurentians, Lanaudière, Montérégie and Abitibi-Témiscamingue.
- Nearly 30% of Quebec's recyclable materials pass through one of our sorting plants.
- The most important sorting organisation in Quebec.

In my bin

- Containers, packaging, print
- 5 materials
- Identification of plastics
- Plastic bags
- Separation of materials
- State of materials
- Other sectors

Visit of the sorting center
